

# Coaxial Spot Light

## SLDH-A21-□

Spot LED is a powerful LED and used for lens magnification higher than 3X. The outer dimension is designed for a maximum of 22mm to facilitate the needs of system integrators. This illuminator is useful not only for coaxial illumination but for spot illumination as well.

### Specifications

| Model                                 | SLDH-A21-W              | SLDH-A21-R | SLDH-A21-G | SLDH-A21-B | SLDH-A21-Y |
|---------------------------------------|-------------------------|------------|------------|------------|------------|
| Input Current                         | 700mA                   |            |            |            |            |
| Color Temperature/<br>Peak Wavelength | 6500K typ.              | 635nm typ. | 525nm typ. | 465nm typ. | 490nm typ. |
| Cable Length                          | 1000m                   |            |            |            |            |
| Input Connector                       | SM connector(SMR-03V-B) |            |            |            |            |
| Polarity                              | 1:NC 2:- 3:+            |            |            |            |            |
| Ambient Temperature                   | 0~+40°C                 |            |            |            |            |
| Ambient Humidity                      | 35~85% (non condensing) |            |            |            |            |
| Weight                                | 45g                     |            |            |            |            |
| Adaptable Compliance                  | RoHS,IEC 62471          |            |            |            |            |
